Golden Delicious Pineapple Sage *Salvia elegans 'Golden Delicious'*

Height: 3 feet

Spread: 3 feet

Spacing: 24 inches

Sunlight: ○

Hardiness Zone: (annual)

Other Names: Ornamental Sage

Description:

A standout variety with bright golden yellow foliage to add color; contrasting bright red blooms add dazzle to an already beautiful addition to borders or containers; dense and bushy

Ornamental Features

Golden Delicious Pineapple Sage has masses of beautiful spikes of red tubular flowers rising above the foliage from late spring to early fall, which are most effective when planted in groupings. The flowers are excellent for cutting. Its attractive fragrant pointy leaves remain gold in color throughout the season. The fruit is not ornamentally significant.

Landscape Attributes

Golden Delicious Pineapple Sage is an herbaceous annual with an upright spreading habit of growth. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant. Trim off the flower heads after they fade and die to encourage more blooms late into the season. It is a good choice for attracting bees, butterflies and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Golden Delicious Pineapple Sage is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting

Planting & Growing

Golden Delicious Pineapple Sage will grow to be about 30 inches tall at maturity, with a spread of 3 feet. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 24 inches apart. Although it's not a true annual, this plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant should only be grown in full sunlight. It is very adaptable to both dry and moist locations, and should do just fine under typical garden conditions. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America.

Golden Delicious Pineapple Sage is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.

Proven Winners

Proven Winners® plants are developed with outstanding landscape performance, blooming, beauty and quality. Only plants with consistent flowers and color, healthy branching, robust growth, and tolerance of weather extremes can become Proven Winners® plants. These cutting edge and innovative varieties are time tested and trialed for consistent growing and garden performance. Choose from all your favorites and exciting new varieties too!

We are so proud of the nursery stock that we have carefully selected for superior quality and performance, WE GUARANTEE ALL TREES, SHRUBS, EVERGREENS & VINES FOR 2 YEARS; ROSES FOR 1 YEAR!
