## **Fruit Punch® Cherry Vanilla Pinks** *Dianthus 'Cherry Vanilla'*

Plant Height: 6 inches

Flower Height: 8 inches

Spread: 12 inches

Spacing: 8 inches

Sunlight: ☉

Hardiness Zone: 4

Other Names: Border Pinks, Cheddar Pinks

Group/Class: Fruit Punch&reg; Series

### **Description:**

Awesome double flowers are deep red with light pink edges, above mounds of fine foliage; great for flower arrangements; deadhead to re-bloom; pair up with summer blooming perennials and annuals to time a continued flower display

### **Ornamental Features**

Fruit Punch Cherry Vanilla Pinks has masses of beautiful fragrant dark red frilly flowers with pink edges at the ends of the stems from late spring to mid summer, which are most effective when planted in groupings. The flowers are excellent for cutting. Its attractive narrow leaves remain grayish green in color throughout the year.

### **Landscape Attributes**

Fruit Punch Cherry Vanilla Pinks is an herbaceous evergreen perennial with a mounded form. It brings an extremely fine and delicate texture to the garden composition and should be used to full effect.

This is a relatively low maintenance plant, and is best cleaned up in early spring before it resumes active growth for the season. It is a good choice for attracting bees and butterflies to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Fruit Punch Cherry Vanilla Pinks is recommended for the following landscape applications;

- Mass Planting
- Rock/Alpine Gardens
- Border Edging
- General Garden Use
- Container Planting

**Planting & Growing**

Fruit Punch Cherry Vanilla Pinks will grow to be only 6 inches tall at maturity extending to 8 inches tall with the flowers, with a spread of 12 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 8 inches apart. Its foliage tends to remain low and dense right to the ground. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 10 years. As an evergreen perennial, this plant will typically keep its form and foliage year-round.

This plant should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Fruit Punch Cherry Vanilla Pinks is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden. Be aware that in our climate, most plants cannot be expected to survive the winter if left in containers outdoors, and this plant is no exception. Contact our experts for more information on how to protect it over the winter months.
