Speedstar® Red English Daisy

Bellis perennis 'Speedstar Red'

Plant Height: 4 inches

Flower Height: 6 inches

Spread: 8 inches

Spacing: 6 inches

Sunlight: ☉ ●

Hardiness Zone: 4

Other Names: Lawn Daisy

Group/Class: Speedstar Series

Description:

Large fully double red pompoms that deepen in color as they mature; this is a biennial but is sometimes marketed as an annual; prefers cooler summers and cool, moist soil; water regularly, but don't overwater

Ornamental Features

Speedstar Red English Daisy features delicate fully double red button flowers with yellow eyes at the ends of the stems from mid spring to early summer. The flowers are excellent for cutting. Its glossy oval leaves remain dark green in color throughout the season.

Landscape Attributes

Speedstar Red English Daisy is a dense herbaceous biennial with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a high maintenance plant that will require regular care and upkeep, and should only be pruned after flowering to avoid removing any of the current season's flowers. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spreading
- Self-Seeding

Speedstar Red English Daisy is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Naturalizing And Woodland Gardens
- Container Planting

Planting & Growing

Speedstar Red English Daisy will grow to be only 4 inches tall at maturity extending to 6 inches tall with the flowers, with a spread of 8 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 6 inches apart. Its foliage tends to remain low and dense right to the ground. It grows at a fast rate, and tends to be biennial, meaning that it puts on vegetative growth the first year, flowers the second, and then dies. However, this species tends to self-seed and will thereby endure for years in the garden if allowed.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is particular about its soil conditions, with a strong preference for rich, acidic soils. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.

Speedstar Red English Daisy is a fine choice for the garden, but it is also a good selection for planting in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden. Be aware that in our climate, most plants cannot be expected to survive the winter if left in containers outdoors, and this plant is no exception. Contact our experts for more information on how to protect it over the winter months.

We are so proud of the nursery stock that we have carefully selected for superior quality and performance, WE GUARANTEE ALL TREES, SHRUBS, EVERGREENS FOR 2 YEARS, AND ROSES FOR 1 YEAR!
