**Senator IQ Scarlet**

Begonia 'Senator IQ Scarlet'

Height: 10 inches

Spread: 10 inches

Spacing: 8 inches

Sunlight:  

Hardiness Zone: (annual)

Other Names: Cane, Angel Wing

Group/Class: Senator Series

Description:

An upright, mounded selection that provides a season-long beauty in landscapes, hanging baskets and containers; features deep bronze foliage with bright scarlet blooms; low maintenance

Ornamental Features

Senator IQ Scarlet features dainty nodding scarlet orchid-like flowers with yellow throats at the ends of the stems from mid spring to mid fall. Its attractive small serrated pointy leaves remain dark green in color with distinctive dark red edges and tinges of coppery-bronze throughout the season.

Landscape Attributes

Senator IQ Scarlet is an herbaceous annual with a mounded form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a high maintenance plant that will require regular care and upkeep, and usually looks its best without pruning, although it will tolerate pruning. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Insects
- Disease

Senator IQ Scarlet is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

Planting & Growing

Senator IQ Scarlet will grow to be about 10 inches tall at maturity, with a spread of 10 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 8 inches apart. Its foliage tends to remain low and dense right to the ground. This annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. You may want to keep it away from hot, dry locations that receive direct afternoon sun or which get reflected sunlight, such as against the south side of a white wall. It requires an evenly moist well-drained soil for optimal growth, but will die in standing water. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Senator IQ Scarlet is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers and foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
