Catalina[®] Pink Torenia

Torenia 'Dancatpink'

Height: 12 inches

Spread: 24 inches

Spacing: 18 inches

Sunlight:

Hardiness Zone: (annual)

Other Names: Wishbone Flower

Group/Class: Catalina® Series

Description:

This series features large flowers on neatly mounded plants that are very heat tolerant; a shade blooming variety that is perfect for areas prone to downy mildew

Ornamental Features

Catalina Pink Torenia features showy rose tubular flowers with shell pink overtones and a buttery yellow flare along the stems from late spring to mid fall. Its small fragrant pointy leaves remain green in color throughout the season.

Landscape Attributes

Catalina Pink Torenia is an herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This plant will require occasional maintenance and upkeep, and should not require much pruning, except when necessary, such as to remove dieback. It is a good choice for attracting bees and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Catalina Pink Torenia is recommended for the following landscape applications;

Greenfield Waukesha 12217 Watertown Plank 3725 S. 108th Street 2220 E Moreland Blvd (414) 328-5600 (262) 797-7070

- Container Planting

- Hanging Baskets Planting & Growing Catalina Pink Torenia will grow to be about 12 inches tall at maturity, with a spread of 24 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 18 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This

This plant does best in partial shade to shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

fast-growing annual will normally live for one full growing season, needing replacement the following year.

Catalina Pink Torenia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. Because of its trailing habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
