## Sweet Caroline Light Green Sweet Potato Vine

*Ipomoea batatas* 'Sweet Caroline Light Green'

Height: 8 inches

Spread: 5 feet

Sunlight:

Hardiness Zone: (annual)

Group/Class: Sweet Caroline Series

### Ornamental Features

Sweet Caroline Light Green Sweet Potato Vine is primarily valued in the garden for its spreading and trailing habit of growth. Its attractive lobed leaves remain light green in color throughout the season.

### Landscape Attributes

Sweet Caroline Light Green Sweet Potato Vine is a dense herbaceous annual with a trailing habit of growth, eventually spilling over the edges of hanging baskets and containers. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant. The flowers of this plant may actually detract from its ornamental features, so they can be removed as they appear. It has no significant negative characteristics.

Sweet Caroline Light Green Sweet Potato Vine is recommended for the following landscape applications;

- General Garden Use
- Groundcover
- Container Planting
- Hanging Baskets

**Planting & Growing**

Sweet Caroline Light Green Sweet Potato Vine will grow to be about 8 inches tall at maturity, with a spread of 5 feet. Its foliage tends to remain low and dense right to the ground. This fast-growing annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. You may want to keep it away from hot, dry locations that receive direct afternoon sun or which get reflected sunlight, such as against the south side of a white wall. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This is a selected variety of a species not originally from North America. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Sweet Caroline Light Green Sweet Potato Vine is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. Because of its trailing habit of growth, it is ideally suited for use as a 'spiller' in the 'spiller-thriller-filler' container combination; plant it near the edges where it can spill gracefully over the pot. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.

**Proven Winners**

Proven Winners® plants are developed with outstanding landscape performance, blooming, beauty and quality. Only plants with consistent flowers and color, healthy branching, robust growth, and tolerance of weather extremes can become Proven Winners® plants. These cutting edge and innovative varieties are time tested and trialed for consistent growing and garden performance. Choose from all your favorites and exciting new varieties too!
