**Robinson's Pink Painted Daisy**

*Tanacetum coccineum 'Robinson's Pink'*

Plant Height: 12 inches

Flower Height: 18 inches

Spread: 18 inches

Spacing: 14 inches

Sunlight: ☉

Hardiness Zone: 2

Other Names: Pyrethrum

**Ornamental Features**

Robinson's Pink Painted Daisy has masses of beautiful hot pink daisy flowers with yellow eyes at the ends of the stems from early to mid summer, which are most effective when planted in groupings. The flowers are excellent for cutting. Its deeply cut ferny leaves remain dark green in color throughout the season. The fruit is not ornamentally significant.

**Landscape Attributes**

Robinson's Pink Painted Daisy is an herbaceous perennial with a mounded form. Its relatively fine texture sets it apart from other garden plants with less refined foliage.

This is a relatively low maintenance plant, and should be cut back in late fall in preparation for winter. It is a good choice for attracting butterflies to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Robinson's Pink Painted Daisy is recommended for the following landscape applications;

- Mass Planting
- General Garden Use

**Planting & Growing**

Robinson's Pink Painted Daisy will grow to be about 12 inches tall at maturity extending to 18 inches tall with the flowers, with a spread of 18 inches. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 14 inches apart. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 5 years.

This plant should only be grown in full sunlight. It prefers to grow in average to moist conditions, and shouldn't be allowed to dry out. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America. It can be propagated by division; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

**Garden Stars Perennials**

The Garden Stars® Perennial Collection is a complete line of all your traditional perennial favorites with some exciting new varieties too! These perennials are grown by a network of trusted growers to provide you the highest quality plants for your garden. These varieties have been selected for hardiness, compact growth, and consistent, reliable flower color. Perfect for planting in: garden beds, perennial borders, rock, cottage, prairie or woodland gardens, & even pots on the patio!
