Splash Select™ Red Polka Dot Plant

Hypoestes phyllostachya 'PAS2344'

Height: 12 inches

Spread: 12 inches

Sunlight:

Hardiness Zone: (annual)

Group/Class: Splash Select Series

Description:

A wonderful heat and shade tolerant variety, perfect for garden beds, borders and containers; mounded plants produce interesting red foliage with large, uniform spots; great way to add color, contrast and texture; drought tolerant once established

Ornamental Features

Splash Select Red Polka Dot Plant's attractive pointy leaves remain cherry red in color with distinctive dark green spots throughout the year on a plant with a mounded habit of growth.

Landscape Attributes

Splash Select Red Polka Dot Plant is an herbaceous annual with a mounded form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a relatively low maintenance plant, and should not require much pruning, except when necessary, such as to remove dieback. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Splash Select Red Polka Dot Plant is recommended for the following landscape applications;

Planting & Growing

Splash Select Red Polka Dot Plant will grow to be about 12 inches tall at maturity, with a spread of 12 inches. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. Although it's not a true annual, this fast-growing plant can be expected to behave as an annual in our climate if left outdoors over the winter, usually needing replacement the following year. As such, gardeners should take into consideration that it will perform differently than it would in its native habitat.

This plant does best in full sun to partial shade. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Splash Select Red Polka Dot Plant is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a canvas of foliage against which the thriller plants stand out. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.

We are so proud of the nursery stock that we have carefully selected for superior quality and performance, WE GUARANTEE ALL TREES, SHRUBS, EVERGREENS FOR 2 YEARS, AND ROSES FOR 1 YEAR!
