Funky Fuchsia™ Butterfly Bush

Buddleia davidii 'PIIBD-II'

Funky Fuchsia Butterfly Bush flowers
Photo courtesy of NetPS Plant Finder

Height: 8 feet

Spread: 8 feet

Sunlight: ○

Hardiness Zone: 4

Other Names: Summer Lilac

Description:

An amazing garden plant with large, cone shaped clusters of rich fuchsia blooms from dark red buds; attracts butterflies; rounded to upright habit; a beautiful color addition to the landscape that blooms all season long

Ornamental Features

Funky Fuchsia Butterfly Bush features showy panicles of fragrant fuchsia flowers with orange eyes at the ends of the branches from late spring to early fall, which emerge from distinctive dark red flower buds. The flowers are excellent for cutting. It has dark green foliage with gray undersides. The fuzzy narrow leaves do not develop any appreciable fall color.

Landscape Attributes

Funky Fuchsia Butterfly Bush is an open multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This is a relatively low maintenance shrub, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees, butterflies and hummingbirds to your yard, but is not particularly attractive to deer who tend to leave it alone in favor of tastier treats. It has no significant negative characteristics.

Funky Fuchsia Butterfly Bush is recommended for the following landscape applications;

We are so proud of the nursery stock that we have carefully selected for superior quality and performance, WE GUARANTEE ALL TREES, SHRUBS, EVERGREENS FOR 2 YEARS, AND ROSES FOR 1 YEAR!

Planting & Growing

Funky Fuchsia Butterfly Bush will grow to be about 8 feet tall at maturity, with a spread of 8 feet. It tends to be a little leggy, with a typical clearance of 1 foot from the ground, and is suitable for planting under power lines. It grows at a fast rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It is very adaptable to both dry and moist locations, and should do just fine under average home landscape conditions. It is not particular as to soil type or pH, and is able to handle environmental salt. It is highly tolerant of urban pollution and will even thrive in inner city environments. This is a selected variety of a species not originally from North America.

Funky Fuchsia Butterfly Bush makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden. Be aware that in our climate, most plants cannot be expected to survive the winter if left in containers outdoors, and this plant is no exception. Contact our experts for more information on how to protect it over the winter months.

We are so proud of the nursery stock that we have carefully selected for superior quality and performance, WE GUARANTEE ALL TREES, SHRUBS, EVERGREENS FOR 2 YEARS, AND ROSES FOR 1 YEAR!
